

SINGLE CATEGORY MEDICATION REPORTS

Quick Reference List

PAIN MEDICATION REPORT		
NSAIDs	Opioid Analgesics	Other
Celecoxib Flurbiprofen Ibuprofen Meloxicam Piroxicam	Codeine Hydrocodone Morphine Oxycodone Tramadol	Amitriptyline Duloxetine Nortriptyline

CARDIOVASCULAR MEDICATION REPORT		
Statins	Beta Blockers	Other
Atorvastatin Fluvastatin Simvastatin	Metoprolol	Acenocoumarol Clopidogrel Flecainide Irbesartan Losartan Propafenone Warfarin

GASTROINTESTINAL MEDICATION REPORT	
Proton Pump Inhibitors	Anti-Emetics
Dexlansoprazole Esomeprazole Lansoprazole Omeprazole Pantoprazole Rabeprazole	Metoclopramide Ondansetron

MENTAL HEALTH MEDICATION REPORT			
Antidepressants		Antipsychotics	Other
Amitriptyline Citalopram Clomipramine Desipramine Doxepin Duloxetine Escitalopram	Fluoxetine Fluvoxamine Imipramine Mirtazapine Moclobemide Nortriptyline	Paroxetine Sertraline Venlafaxine Vortioxetine	Atomoxetine Clobazam Diazepam Melatonin

HEALTH CARE PROFESSIONAL REPORTS

Medication List

Below is a list of the main medications covered by the myDNA Medication Test (grouped by the gene which primarily impacts the medication response). Note: CYP450 enzymes generally metabolise pharmacologically active drugs into less active metabolite(s). Conversely, prodrugs are pharmacologically inactive, and are converted into active metabolite(s).

CYP2D6						SLC01B1		
Antidepressants		Anti-emetics	Antipsychotics	Beta Blockers	Opioid Analgesics	Other	Statins	
Amitriptyline Clomipramine Desipramine Doxepin	Duloxetine Fluoxetine Fluvoxamine Imipramine Mirtazapine	Nortriptyline Paroxetine Venlafaxine Vortioxetine	Metoclopramide Ondansetron	Aripiprazole Brexpiprazole Chlorpromazine Haloperidol Pimozide Risperidone Zuclopenthixol	Metoprolol	Codeine* Hydrocodone Oxycodone Tramadol*	Atomoxetine Flecainide Propafenone Tamoxifen* Tetrabenazine Tolterodine	Atorvastatin Fluvastatin Simvastatin
						OPRM1		
						Opioid Analgesics	Morphine	

CYP1A2		CYP2C19			CYP2C9	
Antipsychotics	Other	Proton Pump Inhibitors	Antidepressants	Other	NSAIDs	Other
Clozapine Olanzapine	Melatonin	Dexlansoprazole Esomeprazole Lansoprazole Omeprazole Pantoprazole Rabeprazole	Amitriptyline Citalopram Clomipramine Doxepin Escitalopram Imipramine Moclobemide Sertraline	Clobazam Clopidogrel* Diazepam Voriconazole	Celecoxib Flurbiprofen Ibuprofen Meloxicam Piroxicam	Acenocoumarol Fluvastatin Irbesartan Losartan* Phenytoin Warfarin

CYP3A4	CYP3A5
Antipsychotics	Other
Quetiapine	Tacrolimus

*This is a prodrug. (Metabolised in the body into an active form)
